

“Catch the Reading Bug!”

The Summer Reading program will begin June 10, 2008 @ 10:00 a.m. and will last 1 ½ -2 hours. We will meet in the children’s section of the PCI Library/Education Department every Tuesday until school starts. During the program, we will share a “buggy” book and do a craft/activity related to the story. On Mondays and Wednesdays at the PCI Wellness and Activities Center, we will do the same. On certain days, we will have an extra special program in an effort to draw more of our tribal youth to our Library. Youth of all ages are invited to participate. Below is a list of our upcoming “special events”:

- **Bug Scavenger Hunt**-each child will be given a list of “buggy” objects that he/she will search for both inside and outside of the Library. Once every one has finished the hunt, we will share our “buggy” findings!-**June 17, 2008**
- **Movie Night in the Library**-we will have two movie nights-we will be showing “A Bug’s Life” rated **G** –**June 24, 2008** and “How to Eat Fried Worms” rated **PG**-**July 15, 2008**. Popcorn will be served! Both movies will begin @6:00 p.m.
- **Worm Races**-“Let the races begin!” In this “wormy” race, each child will be given a live fishing worm (night crawler etc.) and a spray bottle filled with water. Upon spraying the worms, they will race to get away from the water. The child whose worm reaches the end mark first is the winner!-**July 8, 2008**
- **Butterfly Release**-Throughout the reading program we will be raising butterflies that will come to us first as caterpillars. The children will get to watch as the caterpillars become butterflies before their eyes. When the transformation is complete, we will have a special butterfly release for everyone to enjoy!-**July 22, 2008**
- **Bug Fear Factor**-just like the TV show, kids will be dared to eat real bugs (chocolate covered/cheese flavored) if they want to win the grand prize!-**July 29, 2008**

Parents are welcome and strongly encouraged to attend!

Note: Dates and times are subject to change due to insect availability! Prizes will vary!
