

Train to be a Fiber Optics Technician at Northeast Alabama Community College

**138 AL Hwy 35
P.O. Box 159
Rainsville, Alabama 35986**

Northeast Alabama Community College, in partnership with BDI DataLynk, will provide fiber optic training courses. Your opportunity to register for this one-week course is today. Classes are November 13 - 19, 2017. Training includes both classroom instruction and hands-on participation. All training is internationally recognized, accredited by Building Industry Consulting Service International, Inc., and sanctioned by the Fiber Optics Association (FOA).

Fall 2017 Schedule:

(CFOT) Basic Certified Fiber Optics Technician
3-day Course \$700.00/student –November 13-15, 2017

(CFOS/T) Certified Fiber Optics Specialist in Testing & Maintenance

2-day Course \$675.00/student –November 16 & 17, 2017

(CFOS/S) Certified Fiber Optics Specialist in Splicing

2-day Course \$675.00/student - November 18 & 19, 2017

Fees include books and training materials, 1-year membership to FOA, and certification assessment. The Certification for the program is recognized by the U.S. Department of Labor.

Courses will be held on the NACC campus from 8:00 am until 5:00 pm. Interested participants should have a basic working knowledge of computers, able to identify small items, and able to speak and understand the English language. Let an experienced instructor guide you and certify you in person. Registrations for the November session are now open through Monday, November 6, 2017. Contact Julie George at 256-228-6001, extension 2214 or 256-638-4418, ext. 2214 or email at georgej@nacc.edu to register or more information. Go to www.bdidatalynk.com for specific training information and employment opportunities.
