ABOUT OUR MP SCHOLARSHIP

Earning a college degree is a must these days if you want to succeed. Although this provides you with a distinct advantage in life, there is no guarantee that you will reach your financial goals. Many people have advanced degrees and still struggle to have enough money simply because they never learned how to make good choices when it came to their personal finances. Students don't even learn how to balance their checking account in school these days. Good financial management starts at home and we hope to reward families that make responsible money management a top priority and this is why we've selected this topic for our scholarship essay.

Your essay gives you an opportunity to receive help to pay for college and it will also help teach readers how to budget their money, invest it wisely to make more money and how best to save for retirement.

Don't forget the deadline for this year's scholarship application is October 15 and next year in April 15. We are only awarding one MP Scholarship a year so make sure you get your application submitted before the deadline. Powered by www.mallorca-properties.co.uk
