ATSU | FIRST IN WHOLE
ONLINE | PERSON HEALTHCARE

A.T. Still University

A.T. Still University of Health Sciences (ATSU) is home of the world's first osteopathic medical school, established in 1892 by Andrew Taylor Still, D.O. ATSU is comprised of two campuses (Kirksville, Mo. and Mesa, Ariz.) on more than 200 acres with six prestigious schools. Learning environments include online and on-campus options as well as community-

based partnerships worldwide. ATSU has a rich history of leadership in healthcare education, health education research and community outreach.

About the Program

A.T. Still University of Health Sciences' (ATSU) Master of Health Administration (MHA) online program prepares students to advance to leadership roles in healthcare with the flexibility to customize interests and schedule

Providing comprehensive learning for today's business environment, ATSU's esteemed master's degree in health administration is taught by "scholar practitioners" who provide both practical and academic perspectives.

Continuously innovating to address the most current market demands, ATSU's College of Graduate Health Studies (ATSU-CGHS) offers students the opportunity to choose the new concentration of Health Information Management beginning in July 2014.

MHA students gain the mastery needed to step up to leadership in the business of healthcare, and also access professional opportunities to connect and advance as student members of the American College of Healthcare Executives.

Students further enrich their management capabilities and establish lifelong relationships with faculty and fellow students at ATSU's bi-annual Residential Learning Institutes, gaining the comprehensive business-aligned learning and career-building relationships needed to excel.

Choose the master's degree in health administration that 100 percent of surveyed alumni said they would recommend to their colleagues.

Unique Curriculum

ATSU's MHA program offers a comprehensive yet highly flexible curriculum. Excel with the competencies you will gain through this MHA program's close curriculum alignment with the National Center for Healthcare Leadership model. Management capabilities are further enriched through the Residential Learning Institutes' additional topics including marketing, strategic planning, patient-centered leadership and emergency management.

Learn more about how this curriculum from a leading health sciences university makes a unique difference in helping students advance their knowledge and deepen their impact and influence in health administration. For more information, visit www.atsu.edu/MHA.

Admission Requirements

The renowned ATSU-CGHS MHA online program will admit professionals who have a bachelor's degree, or higher, from an accredited university recognized by the Council for Higher Education.

To view the entire list of admission requirements, including those for international applicants, visit www.atsu.edu/MHA.

Advance to excellence in the business of healthcare.

- > Customize your area of interest in one of four areas: leadership, health policy, health program planning or community health outreach.
- > Boost your career without interrupting it with a highly flexible online format.
- > Optimize in-depth learning and personal interaction with small class sizes capped at 15.
- > Gain the recognition, resources and prestige of ATSU, a leading health sciences university.
