Mrs. Tonya Bozeman, Principal

June 12, 2017

Dear Poarch Parents:

I am Tonya Bozeman, the newly selected principal of Southside Preparatory Magnet Academy. SPMA is the only magnet school within an 80 miles radius; therefore, there is not another middle school like it nearby. At SPMA, you can expect to see an unimaginable place where student learning will be paramount and a place where young people are prepared to meet future challenges. Our students will acquire an advanced knowledge base, be strong in Spanish, science, technology, engineering, arts and mathematics. They will be able to understand and debate contemporary issues and be informed, responsible citizens with a sense of national and global identity. If you want a cherished culture of trust characterized by a strong sense of identity and community, well rounded and distinguished children, this is the place for your child.

As the principal, you can expect my fullest dedication. I will be instrumental in helping this school live up to a mission infused with embracing each child's individuality, exemplifying scholarship, integrating culturally, and advancing cognitive abilities. During this inaugural year, SPMA will launch students as exceptional leaders, and soon you will see how our commitment will transcend into impressive achievements and a legacy of accomplishments.

At SPMA, one of our greatest resources is an innovative, talented, and dedicated staff. The human spirit and interaction between teachers and students will make the difference and ensure that SPMA is the place that caters to the whole child. The staff is committed to excellence and will always be in the forefront of providing quality education and taking the lead to try new initiatives.

Please accept this invitation to apply to SPMA for fall 2017. We will offer your child an experience you are not likely to receive anywhere else. Join us at SPMA for an unforgettable encounter! (Applications will be accepted through July 12, 2017).

Sincerely,

Tonya Bozeman
